

TECHNICAL TRANSLATOR (f/m/d) ENGLISH - DUTCH

We build and run highly-scalable cloud-based software products that help organizations tap into the full potential of their employees. Our products help our customers deliver the best possible human-to-human customer experience. As a Technical Translator, you'll work on the information experience our customers and users have with our products. You'll be collocated and work closely in an interdisciplinary context of Information Developers, Learning Designers, Product Managers and Marketing Experts in our office in Leipzig, Germany.

What you'll do:

- You'll translate and localize technical texts and microcopy from English into Dutch
- You'll proofread technical texts that other translators have written
- As part of the information development team, you'll be responsible for a consistent information experience along the customer and user journey (marketing texts, help center articles, e-learning materials)
- You'll contribute to a growing writing style guide and terminology list
- You'll contribute to best practices for our translation memory system

What you bring to the role:

- You have native Dutch language skills (C2-level)
- You have a university degree in translation studies, translatology, linguistics, technical communication or comparable experience

What we offer:

- Free breakfast, lunch, and snacks
- A free ticket for public transportation
- Flexible working hours and the option to work from home
- Adjustable working time model (full-/part-time) and sabbaticals
- Dedicated time for hacks to explore new methods, technologies and tools
- Stock options
- A company pension plan
- Employee offers (Corporate Benefits)
- A job bike
- Free parking
- Relocation support
- ...and lots more.

About InVision, in a few words:

Established in 1995, we are developing Software as a Service (SaaS) products for Workforce Management and Digital Education. Thousands of business customers around the globe use our solutions. We value simplicity, trust, and teamwork. You won't find the usual hierarchical structures here but truly empowered product and customer teams. We are a diverse group of international professionals. On top of that, we are a certified Great Place to Work.

We're an equal opportunity employer and value diversity and inclusion. All qualified applicants will be considered without regard to ethnicity, color, national origin, religion, sex, gender identity, sexual orientation, pregnancy, age, protected veteran status, or disability status.

Sounds good? Let's talk next steps:

If this job offer makes your heart skip a beat, [send us your application today](#), even if you're not 100 percent sure whether you can fulfill all the tasks.
